Faster payments = Happier payees and higher retention

Payment is the final step in a complex, interconnected claims process. It's also the step your policyholders and service providers will remember most. VPay transforms this crucial “last mile” of the claims process by:

- Making it easy for policyholders and service providers to choose how they want to be paid, and encouraging them to use faster, more cost-effective epayment options
- Providing a complete range of convenient payment options, including VCard, push-to-debit, ACH transactions and paper checks.
- Offering a simple, mobile-expedited process for facilitating payments, including multi-party payments.
- Protecting every transaction with built-in authentication and security.

VPay delivers better payment experiences, but it also saves you money. With no up-front costs, guaranteed revenue sharing and other proven savings, our largest clients report saving more than \$1,000,000 every year with VPay. We're ready to help you do the same.
