

vpay® | The Total
Payment Solution

Creating better
claim payment
experiences **for**
dental providers

Eliminate costs on day one by moving more dentists from expensive checks to efficient, low-cost epayments

Today, the dentists you work with are looking for more connected and convenient payment experiences. At the same time, you need the cost savings that come from moving more of those practices from costly paper checks to efficient epayments. VPay does both—with a total payment solution that actively extends epayment options to all of your dentists, removes the barriers that have traditionally prevented dental practices from adopting epayments and delivers real-time payment support your dentists can depend on.

VPay increases the payment satisfaction of every dental practice you work with. But it also provides the tools and capabilities you need to quickly boost payment efficiency, lower your payment costs, maximize ROI and drive higher epayment adoption.

How much will VPay save your organization? VPay helped one large national dental plan boost their epayment adoption by 60% and save more than \$1 million annually. We're ready to help you do the same.

Outsource your claim payments to simplify management and increase profits

Partnering with a proven claim payment specialist like VPay has never made more sense. It's the fastest, most efficient way to streamline your payment processes, lower your costs and connect seamlessly with your existing workflows and systems.

Eliminate print/mail costs

By moving your dentists from paper checks to faster epayment options, you eliminate the postage, printing, and treasury costs associated with paper checks. This includes leveraging our vast network of 2 million medical providers and vendors and their existing payment preferences to maximize epayment adoption.

Reduce banking fees

Offload the hassles of dealing with positive-pay, stop pay, escheatment and other payment-related banking fees and management tasks, so you can focus your people and resources on more important priorities.

Simplify reconciliation and gain “always-on” visibility into all transactions

Available 24/7, VPay's portal provides real-time access to all of your payment transactions where you can track and reconcile payments efficiently.

Process payments efficiently from any location

With VPay, you get a fully remote-enabled solution that allows you to manage, control and deliver claim payments more quickly and safely—without being tied to a physical location.

Take advantage of revenue sharing

VPay allows you to tap into the revenue sharing opportunities that go with virtual card payments. This includes a proven payment preferencing system that actively encourages dentists to adopt virtual card payments, so you gain the financial benefits faster and with less effort.

Improve security and increase fraud protection

VPay has a proven track record of keeping sensitive patient information safe and reducing payment fraud. Last year, we prevented over \$100M in fraudulent payments.

Offer dentists award-winning support

Whenever your dentists have a payment issue or question, they simply call VPay's dedicated Support Center, and our experienced service experts take care of it. Because VPay handles every step of the claim payment process in-house, we are in the best position to address problems quickly and efficiently—usually with a single call.

VPay delivers 90% electronic adoption of dental provider payments

Discover the advantages of a proven, complete payment platform

Not all payment solutions are created equal. With VPay, you get the most comprehensive and capable solution specifically configured for dental plans.
